Report for Week Ending 2 May 1956
from
FORMS MANAGEMENT BRANCH

Numbered Projects

25X1A9a

4-85 - Information Reports Study

1. Printed copies of Forms 1k, 1k-1 and 1k-2, Teletyped Information Report, Continuation, and Transmittal respectively were received last week. Sample copies are attached. These combination H/M - Record Copy Sets are the first to incorporate the new black, silicone overcoated, hectograph carbon master units. DD/P plans to install the new fast system of disseminating "Hot Information Reports" by teletype and an expedited hard copy delivery, sometime around the middle of May. The new system will materially expedite the flow of information. It will also result in completely eliminating "follow-up CS Reports" to teletyped reports. This may save as much as 10% of the effort now being devoted in Headquarters to the production of Information Reports.

2. Proofs of Forms 1a, 1a-1, 1b, 1c and 1d, all Information Report Forms with specialized applications have been received from the printer and are undergoing intensive review.

General Information

1. IAC- AHIP - WGIR

a. I attended the regular bi-weekly AHIP meeting, held this week at the Pentagon to permit viewing some of the Air Forces' recently installed Minicard Equipment. Delivery and installation of the complete system is somewhat less than 50% complete.

b. 19 May 1956 will mark the first anniversary of AHIP.

25X1A9a

c. AHIP's chairman reported that [redacted] OCR recently attended and participated in a demonstration of a new documentation indexing and finding system developed by Documentation, Inc. The system, which appears to be primarily applicable in smaller reference areas is known as EDIAC. Our Management Office (presumably Mr. [redacted]) will arrange a further demonstration for interested persons. 25X1A9a
